

Fusion Splice Protector Sleeves: PS – 15 –Series

Fusion 2000 - Manufactures the industry's highest quality splice sleeves, in probably the widest range. The splice sleeves are manufactured in our **ISO9001-2008** certified facility where Quality is paramount. All materials are compliant with both **RoSH** and **Reach (SVHC)** regulations.

The Splice sleeve is constructed with an inner EVA hot melt able tube, Stainless Steel Pin and a cross linked polyolefin Heat shrink outer tube.

The **PS-15 Series** accommodates Fibre Diameters up to 0.5mm, have a fully reduced diameter of 1.5mm. They are available in both Clear and up to 7 colours, and are pre shrunk to speed up the splicing process.
